

The Sky offers the look and feel of a fluorescent luminaire – subtle soft direct elements, interest and depth across the ceiling plane – with a contemporary look that blends with today's commercial spaces.

The extruded acrylic lens with softening overlay provides a low-brightness glow, with the effective combination of excellent light transmission and effective lamp obscuration.

FEATURES AND BENEFITS

- High reflectance optical engine delivers main beam focus through the optically designed acrylic lens
- Linear ribbed acrylic lens with Lumieo overlay manages the balance of efficiency and aesthetics
- Reflector distributes light through both optical elements
- Linear arrayed LED modules provide soft, but effective illumination

APPLICATIONS

For recessed commercial applications such as offices, hospitals, schools, etc. suitable for use in standard 15/16" inverted T-bar grid ceilings.

SPECIFICATIONS

HOUSING

Low profile body with matte white sloped side members

DIRECT OPTICAL COMPONENT

High reflectance optical engine

DIFFUSER SURROUND

Linear ribbed acrylic lens with Lumieo

REFLECTOR

High reflectance white reflector

LUMINAIRE TYPE

Recessed troffer fixture body assembly 2'x2' and 2'x4' size

LIGHT SOURCE

350ma driver suitable for 120V-277V operation; linear fluorescent options in T5, T5HO or bi-axial lamps

ASSEMBLY
